Beyond the reeds

Connecting with nature through craft

Spreading Our Wings, set up in 2021, is a unique and innovative project. In a partnership between Suffolk Craft Society, RSPB and Britten Pears Arts the project has linked a group of makers to the inspirational and iconic Minsmere site and surrounding area.

Work from this project will be on show in three venues during the coming months. It offers visitors and viewers an opportunity to reflect differently on the Suffolk Coastal landscape, both past and present.
